## Bow Top & Vertical Bar Railings

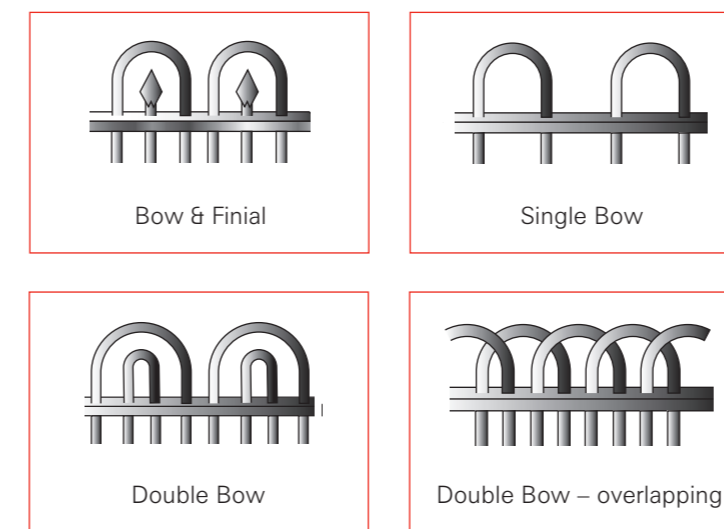

Bow top & vertical bar railings turn a security fence into a decorative and attractive feature. The range of designs available make them the ideal choice for schools, parks and residential areas.

Railings are available in standard size panels or manufactured to suit individual site requirements. As with all Peart Fencing Systems, railings can be polyester powder-coated in virtually any colour.

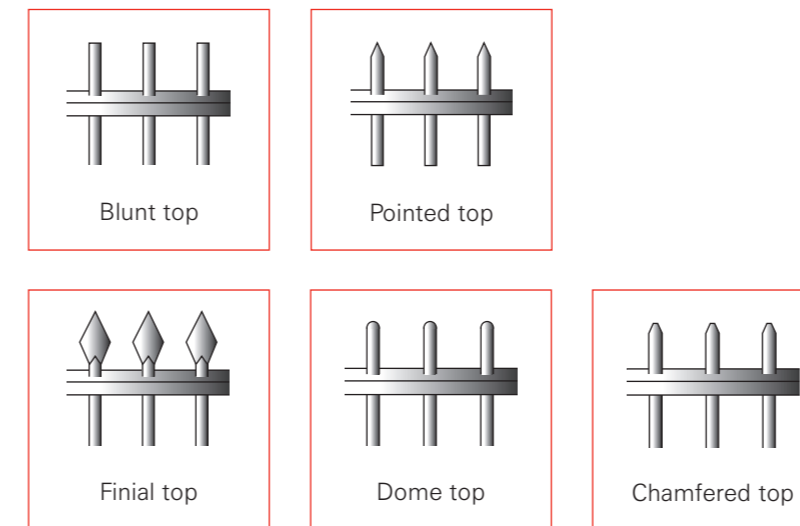

Posts are available as rolled steel joists, hollow square section or tubular steel.

Gates are designed to match the railings and are manufactured to order.

### The standard range of bow top railings available:

### The standard range of vertical bar railings available:

The use of pointed tops is not recommended on railings of 1.8m high and below. Ornamental finials are available in a vast range of styles – information on request.
